- MID SEASON PERENNIAL RYEGRASS (TET) ✓
- LATE PERENNIAL RYEGRASS (TET) ✓
- MEADOW FESCUE ✓
- RED CLOVER BLEND ✓

The country's most respected long term ley with red clover as well as white clover blends for special applications.

- The inclusion of red clover has been proven to increase liveweight gain in lambs particularly in upland situations
- Red Clover contains oestrogen which helps fatten lambs, but ewes should be kept off red clover six weeks prior to and six weeks post tugging to avoid fertility problems and miscarriages
- Like white clover, red clover is rich in protein, minerals and trace elements, essential to the health and performance of your livestock
- The high clover content in Castlehill Red will save you £'s on your fertiliser bills by the fixation of atmospheric nitrogen
