

Dairy cows grazing a Matrix based mixture.

## MATRIX 40 ENHANCED® RYEGRASS MIXTURE

MATRIX  
ENHANCED®  
RYEGRASS

LATE  
PERENNIAL  
RYEGRASS (TET)

LATE  
PERENNIAL  
RYEGRASS

WHITE  
CLOVER  
BLEND

- Our most popular Matrix Enhanced® Ryegrass mixture
- Suitable for most areas in England, Wales and Southern Scotland
- Best suited to intensive grazing
- Inclusion of conventional grasses help protect the Matrix from winter damage
- High (10%) White Clover content helps to feed the grass with clover nitrogen and increases protein and mineral content of the sward

## MATRIX 70 ENHANCED® RYEGRASS MIXTURE

MATRIX  
ENHANCED®  
RYEGRASS

LATE  
PERENNIAL  
RYEGRASS (TET)

WHITE  
CLOVER  
BLEND

- Only recommended for the warmer parts of the UK (not Scotland or Northern Ireland) **unless** overseeding an existing pasture
- For overseeding we recommend a minimum rate of 8 kilos per acre
- Enables farmers in mild winter areas to exploit the value of the long season production of Matrix to the full

## MATRIX ENHANCED® RYEGRASS MIXTURE WITH TIMOTHY

MATRIX  
ENHANCED®  
RYEGRASS

TIMOTHY

LATE  
PERENNIAL  
RYEGRASS (TET)

LATE  
PERENNIAL  
RYEGRASS

WHITE  
CLOVER  
BLEND

- Early to grow in the spring - both Matrix and Timothy will grow at lower temperatures than perennial ryegrass thus making a greater contribution to early turn-out
- This mixture was very high yielding in our trials
- The Timothy also makes this mixture more winter hardy
