- TIMOTHY ✓

- MID SEASON PERENNIAL RYEGRASS (TET) ✓
- LATE PERENNIAL RYEGRASS ✓
- MEADOW FESCUE ✓
- WHITE CLOVER BLEND ✓

Castlehill is the Long Term Ley with Rock Solid Performance

- Suitable for most soil types and climate
- Excellent feed for all classes of livestock
- Superb disease resistance
- Delivers the performance of a medium term ley combined with the persistence of a long term ley
- Reliable top quality grazing and cutting
- Invest in Castlehill for the ultimate in long term productivity

Suggested seed rate: 13-18 kgs/acre (33-45 kgs/ha)
Guide cutting height: 7.5cm (3 inches)

Please note that we can also supply Castlehill with the appropriate percentage of organic seed to meet the 2012 regulations. More information on request.

CASTLEHILL® RED

Dual Purpose

- MID SEASON PERENNIAL RYEGRASS ✓
- LATE PERENNIAL RYEGRASS ✓
- TIMOTHY ✓
- WHITE CLOVER BLEND ✓

- MID SEASON PERENNIAL RYEGRASS (TET) ✓
- LATE PERENNIAL RYEGRASS (TET) ✓
- MEADOW FESCUE ✓
- RED CLOVER BLEND ✓

The country's most respected long term ley with red clover as well as white clover blends for special applications.

- The inclusion of red clover has been proven to increase liveweight gain in lambs particularly in upland situations
- Red Clover contains oestrogen which helps fatten lambs, but ewes should be kept off red clover six weeks prior to and six weeks post tugging to avoid fertility problems and miscarriages
- Like white clover, red clover is rich in protein, minerals and trace elements, essential to the health and performance of your livestock
- The high clover content in Castlehill Red will save you £'s on your fertiliser bills by the fixation of atmospheric nitrogen

LAMBHILL

FESCUE

TIMOTHY

CREEPING RED
FESCUE

WHITE CLOVER
BLEND

- Formulated for harsh environments and marginal land
- Suitable for upland reseeds and bogs
- Excellent long term sheep grazing mixture
- Lambhill is also perfectly suited to extensive farming systems and all classes of livestock
- Despite the name Lambhill is also suitable for both beef cattle and dairy cows!

Suggested seed rate: 13-18 kgs/acre (33-45 kgs/ha)

PERENNIAL
RYEGRASS (TET)

WHITE CLOVER
BLEND

- Clover-rich ley for long term sheep grazing and low cost lamb production
- A development of the SAC "Beechgrove Mixture" which demonstrated savings of around £4.00 per lamb and £54.00 per hectare over conventional systems
- Improvement on the original by the inclusion of CHEVIOT White Clover Blend for faster clover development

Suggested seed rate: 15-17 kgs/acre (37-40 kgs/ha)

CASTLEPARK

Dual Purpose

- EARLY PERENNIAL RYEGRASS (TET) ✓
- LATE PERENNIAL RYEGRASS ✓
- TALL FESCUE ✓
- TIMOTHY ✓
- WHITE CLOVER BLEND ✓

- MID SEASON PERENNIAL RYEGRASS ✓
- LATE PERENNIAL RYEGRASS (TET) ✓
- MEADOW FESCUE ✓
- COCKSFOOT ✓

- Dual purpose mixture for drought prone areas
- Excellent early bite followed by reliable production throughout the season
- Includes TWEED White Clover blend to fix “free” nitrogen and provide nutritional benefits to stock
- Now includes Tall Fescue which is widely used in Northern Europe for it’s tolerance to drought and heat

N.B: Castlepark should be grazed hard to prevent Cocksfoot from forming clumps

Suggested seed rate: **13-18 kgs/acre (33-45 kgs/ha)**
 Guide cutting height: **10cm (4 inches)**

EMERALD HILL

Mainly Grazing

- MID SEASON PERENNIAL RYEGRASS ✓
- LATE PERENNIAL RYEGRASS ✓
- WHITE CLOVER BLEND ✓

- MID SEASON PERENNIAL RYEGRASS (TET) ✓
- LATE PERENNIAL RYEGRASS (TET) ✓

- Developed especially for Ireland
- A later heading mixture for stem free production for much of the season
- Very dense sward for maximum resistance to poaching and treading
- Easy to manage and reliable mixture
- Suits both extensive and intensive livestock systems

Suggested seed rate: **13-18 kgs/acre (33-45 kgs/ha)**

GORDON RHINS

Dual Purpose

EARLY PERENNIAL RYEGRASS

HYBRID RYEGRASS (TET)

LATE INTERMEDIATE PERENNIAL RYEGRASS (TET)

LATE PERENNIAL RYEGRASS (TET)

WHITE CLOVER BLEND

EARLY PERENNIAL RYEGRASS (TET)

MID SEASON PERENNIAL RYEGRASS

LATE PERENNIAL RYEGRASS

TIMOTHY

- Economic dual purpose mixture
- Good continuity of production from very early spring throughout the season
- Excellent quality herbage for hay or silage
- Excellent spring growth for early turnout or an early silage crop

Please note this mixture is **not** treated with **HEADSTART®/Integral®**

Suggested seed rate: 13-18 kgs/acre (33-45 kgs/ha)

BUCHAN CHEVIOT

Dual Purpose

EARLY PERENNIAL RYEGRASS

HYBRID RYEGRASS (TET)

LATE PERENNIAL RYEGRASS

TIMOTHY

WHITE CLOVER BLEND

EARLY PERENNIAL RYEGRASS (TET)

MID SEASON PERENNIAL RYEGRASS

LATE PERENNIAL RYEGRASS (TET)

COCKSFOOT

- Hardy and persistent long term mixture
- Excellent early bite for spring lambs
- Produces excellent grazing for all classes of stock
- Makes good hay or silage
- Suitable for harsher climates, hill sides and challenging conditions

Please note this mixture is **not** treated with **HEADSTART®/Integral®**

Suggested seed rate: 13-18 kgs/acre (33-45 kgs/ha)

LONG TERM

Mixtures for Orkney & Shetland

SCAPA FLOW

- Long term general purpose mixture
- Specially formulated to suit the climate of the Orkney and Shetland archipelagos
- Hardy and persistent

BRODGAR

- Dual purpose mixture for free draining soils
- Includes Cocksfoot which contributes valuable early bite and grows well on free draining slopes

ORKNEY SEA GUSTING

- Suited to areas that are prone to salty spray
- Hardy, persistent and productive
- Suitable for all classes of livestock
